Profile

Recent IT graduate with hands-on experience in WordPress and front-end development. Skilled in building responsive websites using WordPress, React.js, HTML, CSS, and JavaScript. Experienced in theme customization, plugin integration, API handling, and UI design. Eager to grow as a versatile Web Developer.

Education

Hemchandrachary North Gujarat University June 2022 – April 2025
Bachelor of Computer Application

Kadi Sarv - Vidhyalay June 2021 – March 2022
12th GSEB

Experience

Lay Hospitality Solutions May 2025 – present | Ahmedabad, India
Freelance WordPress Developer

- Designed and developed custom WordPress websites using Elementor, WPBakery, and Gutenberg.
- Integrated WooCommerce for e-commerce functionality, including product listing, cart, and payment gateways.
- Optimized websites for SEO, page speed (Google PageSpeed > 90), and mobile responsiveness.
- Customized themes and developed child themes based on client requirements.
- Worked with clients from the hospitality industry (Lay Hospitality Solutions) and local businesses.

Codage Habitation September 2024 – March 2025
React Developer - Intern Ahmedabad, India

- Developed and maintained web applications using Next.js, TypeScript, and React.js.
- Implemented Redux Toolkit for efficient state management and optimized performance.
- Integrated backend APIs for data fetching and submission, ensuring seamless user interactions.
- Built reusable UI components with Tailwind CSS and ShadCN, enhancing project scalability.
- Collaborated with a team to debug issues, optimize code, and improve application performance.

Projects

Lay Hospitality Solutions – B2B E-commerce website

WordPress, WooCommerce, Elementor, PHP, CSS, JavaScript

- Developed a custom B2B e-commerce website using WordPress and WooCommerce, tailored for hospitality product sales.
- Integrated a quote request system for bulk inquiries, replacing traditional checkout to suit business needs.
- Designed a responsive and SEO-optimized interface using Elementor and custom CSS for smooth user experience across all devices.

Hair & Bone - saloon

NextJs, React, Tailwindcss

- Developed a fully responsive and visually appealing salon website using Next.js and React.js, ensuring a seamless user experience across devices.
- Implemented interactive UI components with modern styling techniques, enhancing user engagement and accessibility.
- Optimized website performance and SEO using Next.js features such as Server-Side Rendering (SSR) and Static Site Generation (SSG) for faster load times and better search engine visibility.

E-Commerce – Shopper Stop

React, TailwindCSS, Redux

- Developed a fully functional e-commerce website using React.js, Tailwind CSS, and Redux for seamless state management and UI design.
- Integrated cart functionalities, user authentication, and dynamic product listing to enhance the shopping experience.
- Ensured scalability and responsiveness, optimizing performance across different devices and platforms.

Blog App

Next.js, Typescript, Sanity, Tailwindcss

- Built a responsive and SEO-friendly blog platform using Next.js and TypeScript.
- Integrated Sanity CMS for seamless content management and real-time previews.
- Implemented dynamic routing, category filtering, and optimized performance for an excellent user experience.

Aiming Hospitality

WordPress, Elementor, PHP, CSS, JavaScript

- Built a modern, responsive website using Elementor and custom styling to reflect the brand's professional identity.
- Showcased services and product offerings such as catering equipment, buffetware, and hotel supplies in a clean, organized layout.
- Integrated contact forms, Google Maps, and WhatsApp chat for direct customer interaction.
- Structured the website for SEO optimization, helping improve visibility and lead generation.
- Maintained mobile responsiveness and cross-browser compatibility for a seamless user experience.
